# Fostering an Organization Culture of Knowledge Exchange – Insights into the Journey for Beginners

## Karine Souffez

Associate Director,  
Knowledge Exchange  
Research & Innovation, UBC

Friday, January 31, 2020

#Ktconnects

# FOSTERING AN ORGANIZATIONAL CULTURE OF KNOWLEDGE EXCHANGE

## Insights into the Journey

**Karine Souffez**, Associate Director, Knowledge Exchange

## LEARNING OBJECTIVES

At the end of this webinar, participants will be able to:

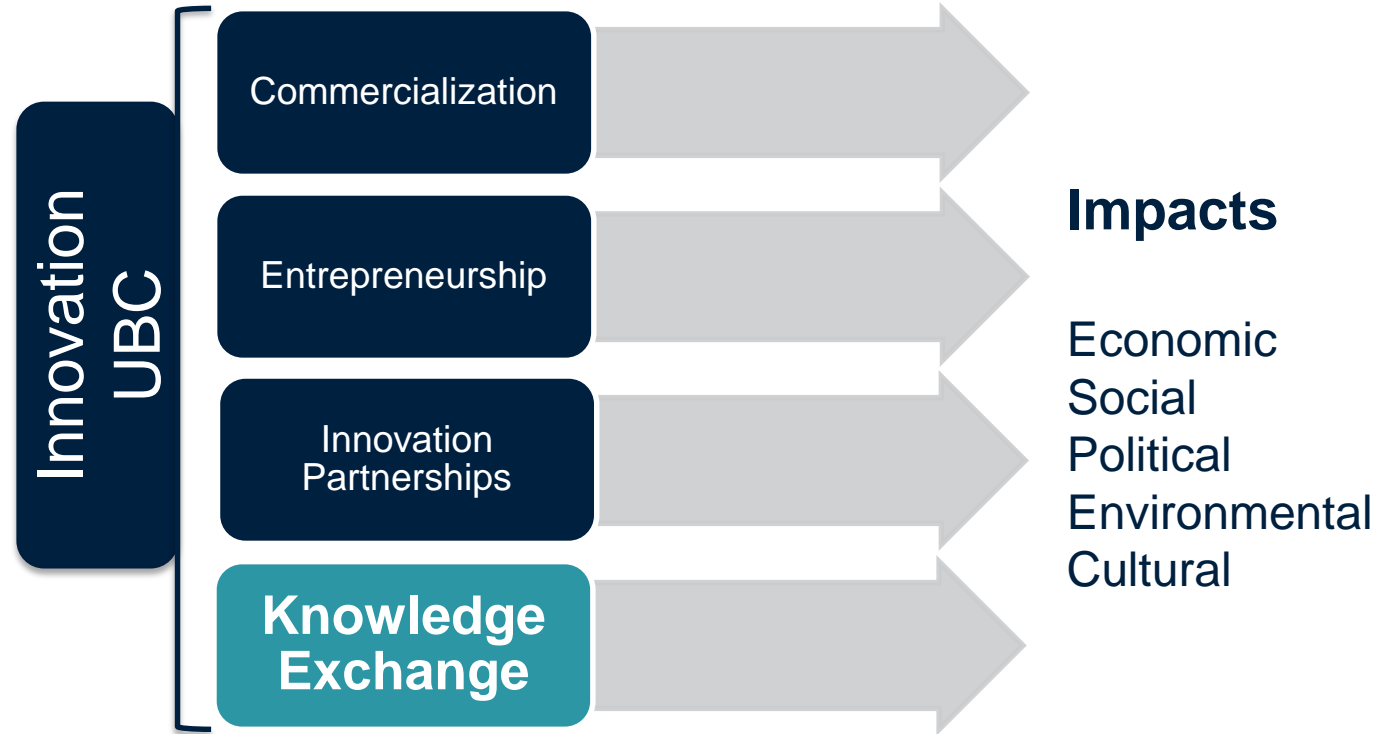

- Identify strategies and steps towards building a knowledge exchange (Kx) organizational culture
- Reflect on drivers and barriers to Kx
- Access Kx organizational frameworks and initiatives

## UBC KNOWLEDGE EXCHANGE UNIT

- Created in November 2018
- Office of the Vice-President Research & Innovation
- Part of Innovation UBC

UBC research & scholarship

# UBC Strategic Plan

## Strategy 9 - Knowledge Exchange

*Improve the **ecosystem** that supports the translation of research into action*

# PROPOSED VISION AND MISSION

## VISION

The UBC Knowledge Exchange Unit is UBC's hub for mobilizing research into policy, practice, culture and public dialogue for the benefit of communities in BC, Canada, and around the world.

## MISSION

The UBC Knowledge Exchange Unit fosters a supportive culture of Kx and builds capacity to help researchers establish meaningful collaborations and drive evidence-informed change within communities, government agencies, and non-profit organizations.

# WHAT DO WE MEAN BY KNOWLEDGE EXCHANGE?

@gapingvoid

**IDENTIFY STRATEGIES AND STEPS  
TOWARDS BUILDING A KX CULTURE**

# THE STEPS TOWARDS FOSTERING A KX CULTURE AT UBC

## 1-Understand the context, opportunities and barriers

Quayle, Bravo, MacLennan's reports (2017, 2018)

### Need for:

- Resources and tools
- Capacity development activities
- Incentives and recognition
- One stop shop of services
- A convening place
- Knowledge brokers
- Liaison with other UBC units
- Kx research or scholarship
- Innovative ways of socializing the importance of Kx
- Metric frameworks for research impact

## THE STEPS

### 2-Mobilize Kx stakeholders at UBC

-Kx Advisory Committee (24 faculty, staff, students)

### 3-Identify priorities

-Kx Strategy 2019-2022

#### **Observation**

Starting points to identify priorities

- Focus on enablers and barriers to change
- Link priorities to a theory of behavior change

## ENABLERS AND BARRIERS

	COM-B*		
	<b>Capability</b> Knowledge and skills	<b>Motivation</b> Attitudes and aspirations	<b>Opportunity</b> Support and incentives
Enablers	Growing number of resources (e.g. workshops)	Benefits to research	Funding agencies requirements
	Scholars with Kx expertise and experience	Sense of responsibility to contribute and give back to society	Institutional grants (e.g. CUES)
Barriers	Lack of understanding	Time constraints	Lack of a coordinating unit
	Specialization of Kx	Competing demands	Lack of support (in kind, financial)
	Lack of training	Lack of recognition of Kx efforts	Gap between Kx partnership needs and institutional policies

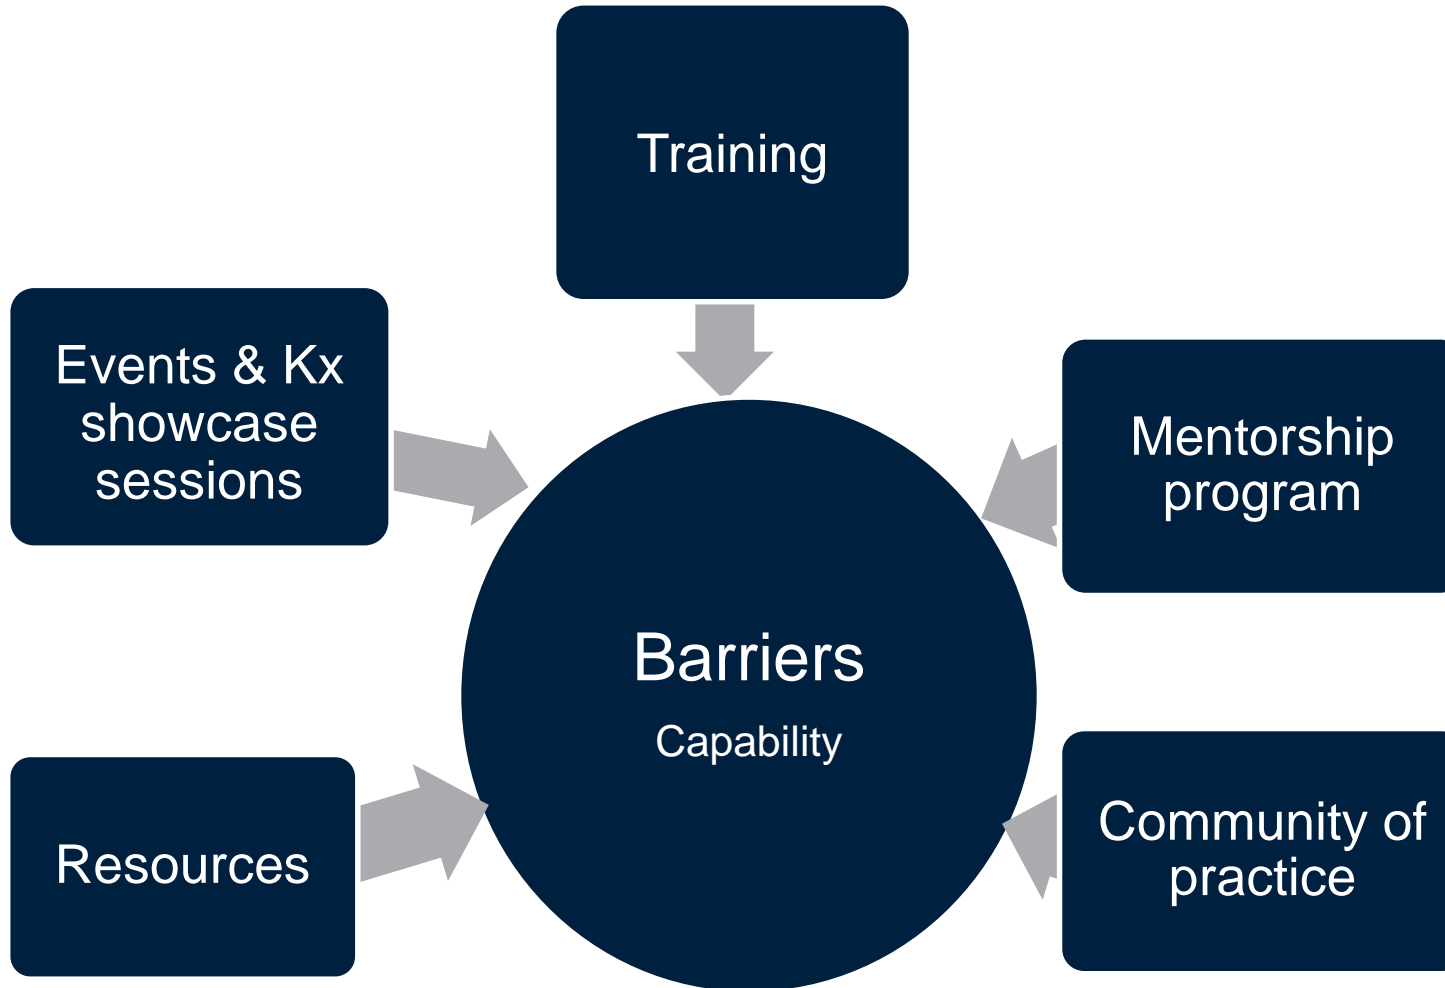

## OBJECTIVES 2019-2022

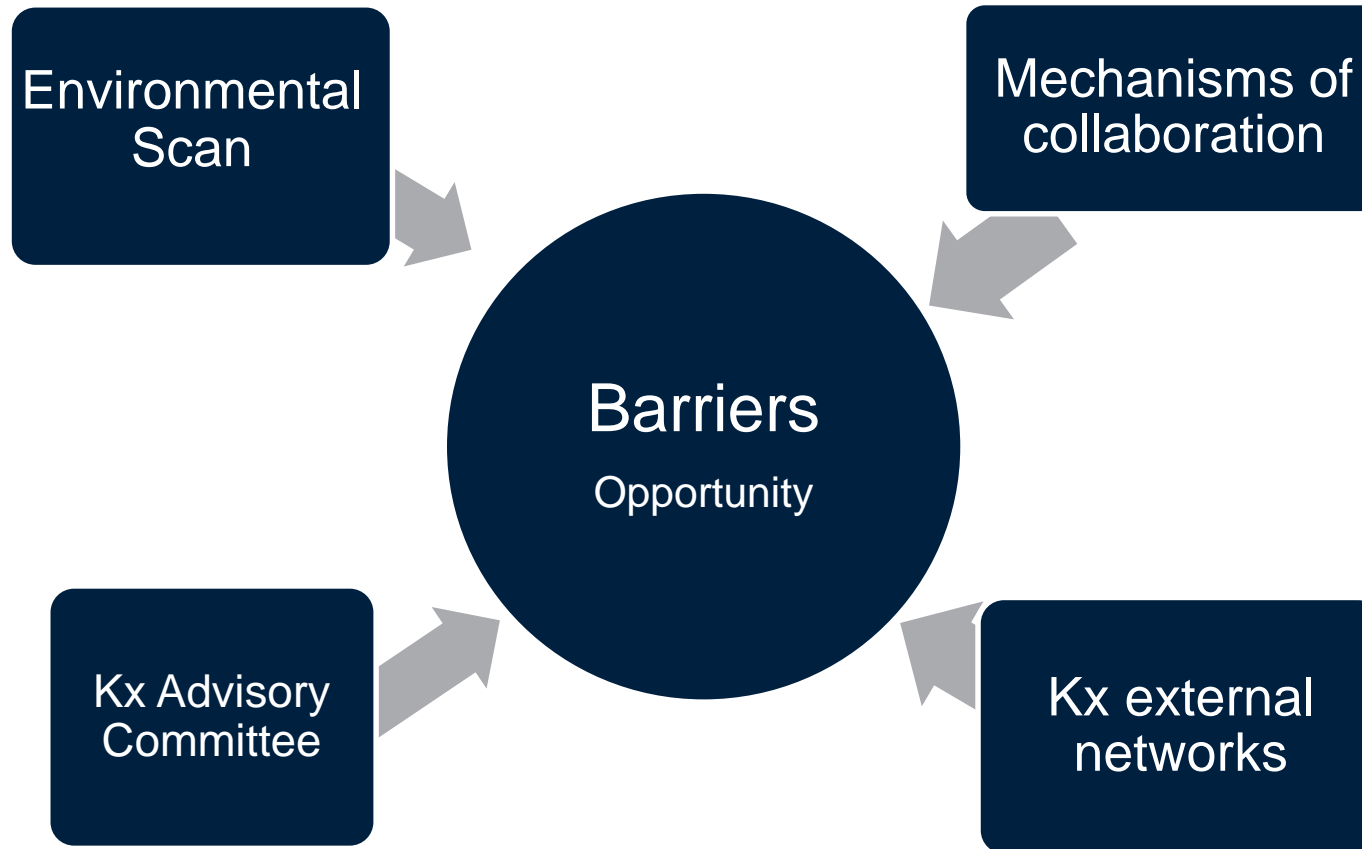

1

Increase awareness and competency in Kx principles and practices

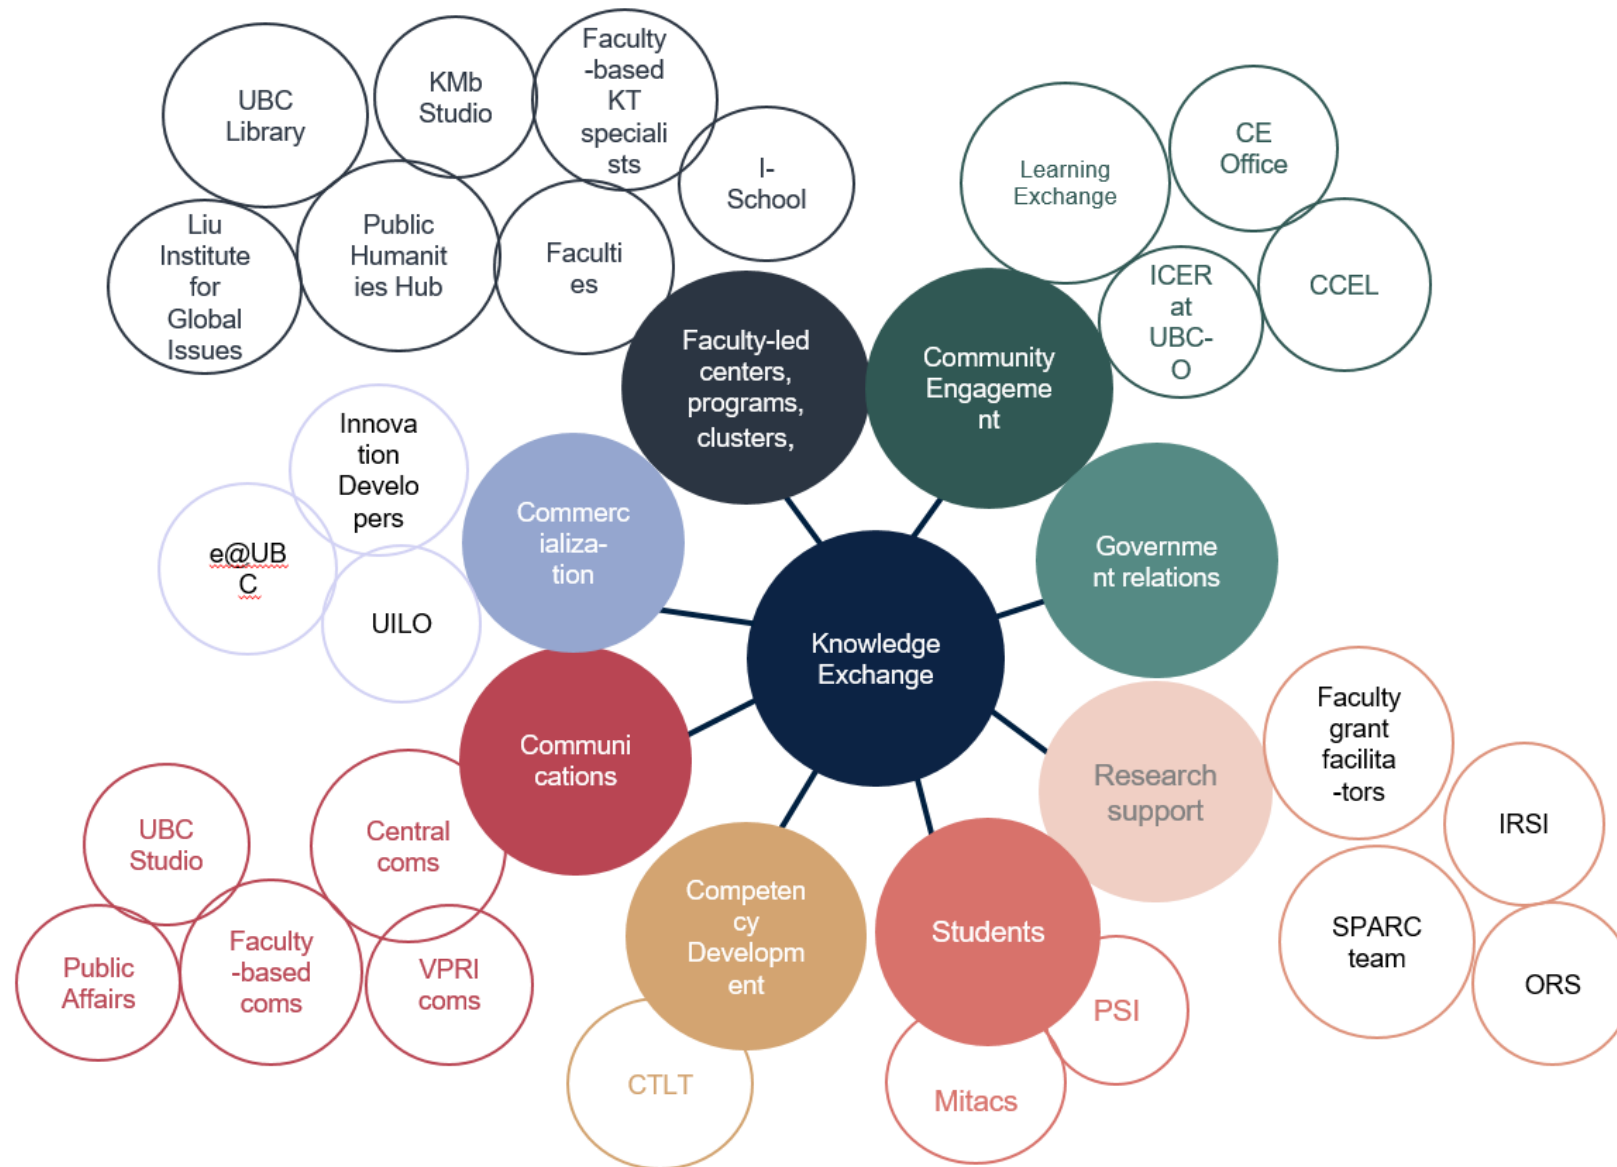

2

Expand the scope of support through the coordination of Kx-related services

# SOME UBC GROUPS PROVIDING KX-RELATED SUPPORT

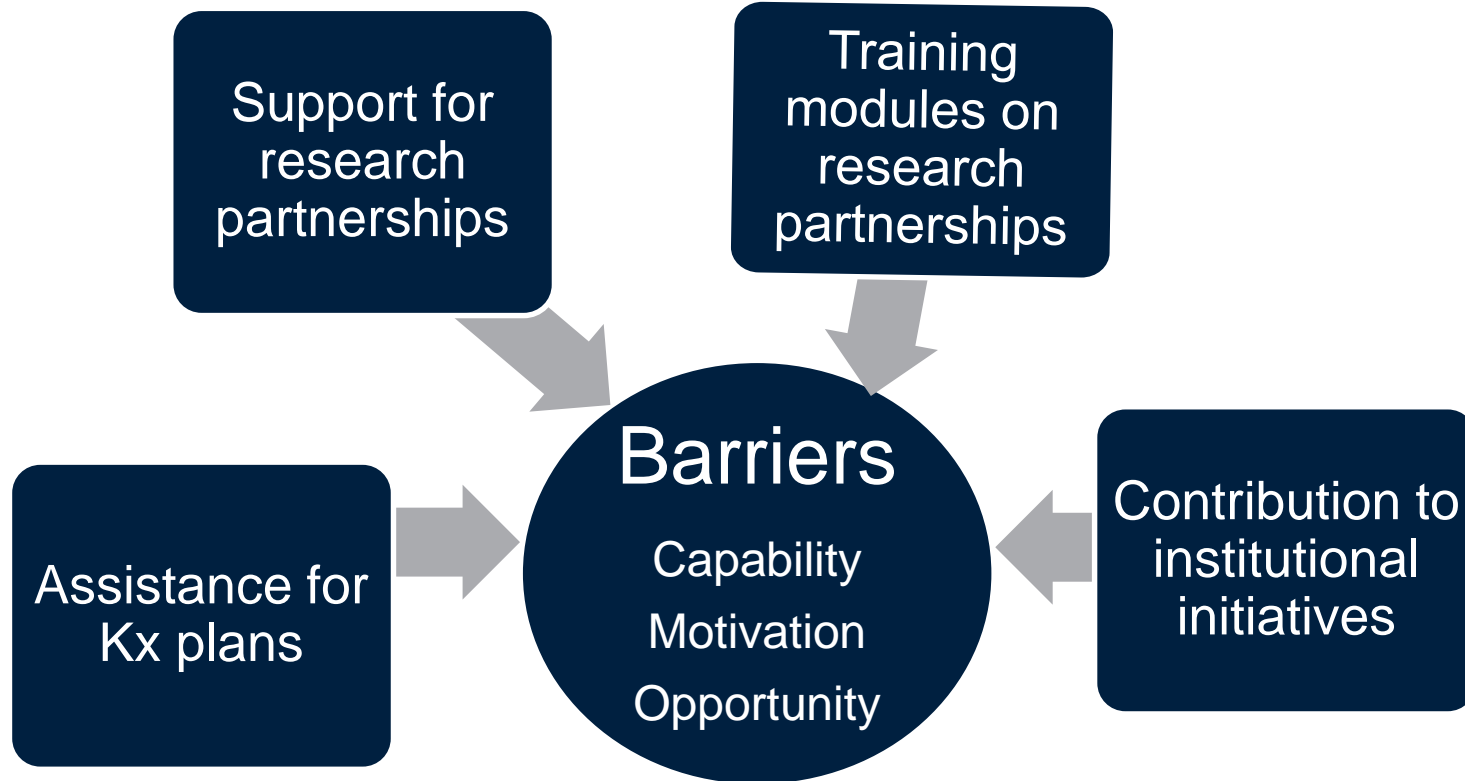

\*SEE APPENDIX FOR ACRONYMS

3

Strengthen engagement between academic and non-academic partners

4

Increase public awareness of the societal impact of UBC research

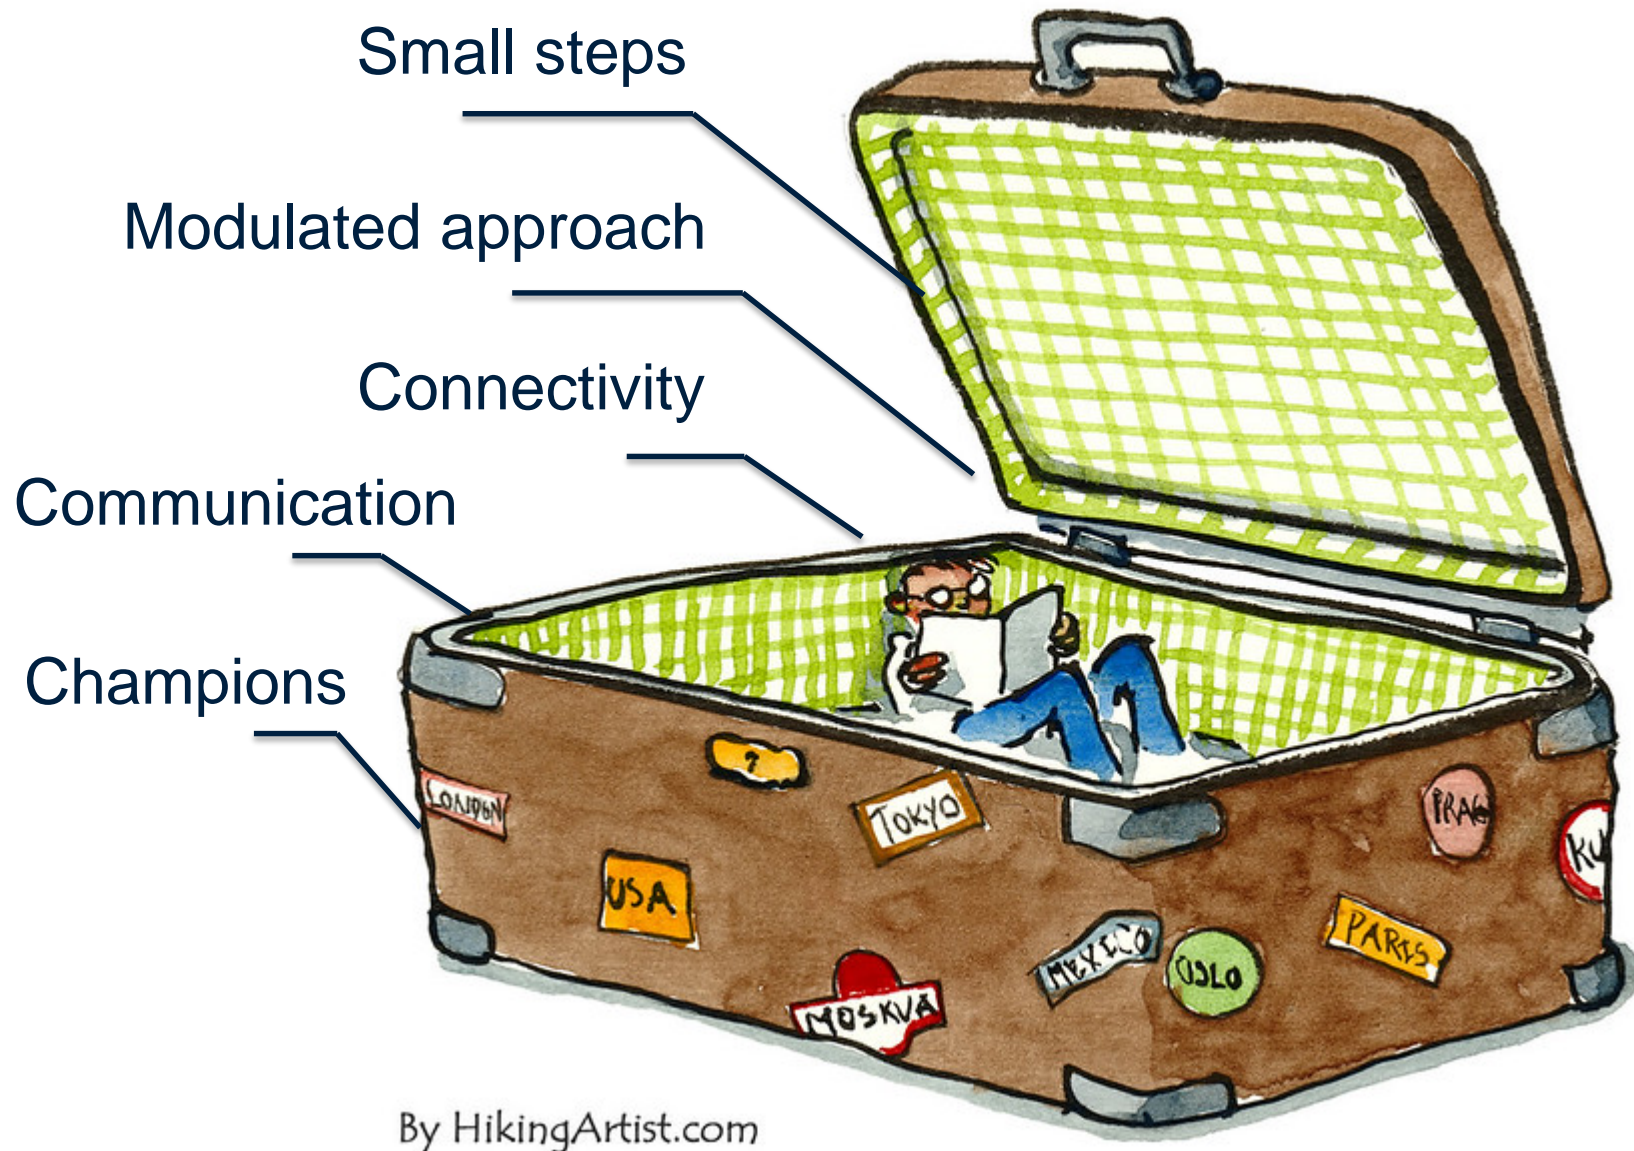

Working  
group on  
metrics

Impact  
narratives

Barriers  
Motivation

# USEFUL IN THE JOURNEY SO FAR

Are there ideas among the ones  
presented that would be useful to you?

# LESSONS LEARNED IN NON- UBC CONTEXTS

## LESSONS LEARNED IN NON-UBC CONTEXTS

### What worked?

- Supportive leadership
- Strategic plan commitment
- Early adopter approach and pilot projects
- Integration of Kx considerations in institutional processes
- Training

### What didn't?

- Develop a common language around Kx
- Delineate clear boundaries between Kx and other functions
- Get everyone on board

# SUSTAINING CULTURAL CHANGES IN ORGANIZATIONS

## Principles

- Align vision and action
- Make incremental change
- Foster distributed leadership
- Promote staff engagement
- Create collaborative interpersonal relationships
- Continually assess and learn from cultural change.

## Strategies

- Identify existing commitments and connections
- Understand management
- Practice and pilot change
- Capitalize on existing momentum
- Think about what needs to be changed

**REFLECT ON ENABLERS AND  
BARRIERS TO CHANGE IN YOUR  
ORGANIZATION**

## COMMON BARRIERS TO KX IN ACADEMIC LITERATURE

Researchers	Policy-makers	Service providers
Lack of reward and recognition systems	Short timeline for decision-making and research use	Instability of funding complicates long-term relationships
Time constraints	Evolving priorities	Lack of infrastructure to participate in or use research
Lack of training	Information overload – multiple sources of info to consider	Difficulty to identify research questions due to competing priorities
Limited opportunities to connect with end users	Difficulty to access researchers	Difficulty to apply findings when in contradiction with experience
Fears of misuse of research	Need for immediate results	Little power to modify practices within the org
