

## **Session 3: Research Ethics from Theory to Practice**

**Date: Friday 4th Nov**

**Time: 10:00 – 12:00am PST**

Join a group of clinical research coordinators/managers as they share with us the challenges and opportunities when moving from the ethics review process to ethics during the conduct of clinical trials.

---

**Camille Galloway, RN, BScN**, Clinical Research Coordinator, Kelowna General Hospital, Interior Health

Camille completed her Bachelor of Science in Nursing at the University of British Columbia Okanagan. Camille currently works as a Clinical Research Coordinator at Kelowna General Hospital where she supports a range of clinical trials within the fields of cardiology and stroke. She recently completed her Master of Science in Nursing and looks forward to the next four years of intellectual misery as she begins her PhD in the spring of 2023. In her spare time, Camille enjoys running, the outdoors and spending time with friends and family.

---

**Marie McClelland, RN, CRC**, Clinical Research Coordinator, Interior Health

I am an RN and my background is in critical care, primarily emergency. My career has taken me across Canada from Vancouver to Toronto to Calgary. In 2002, I left Foothills Hospital ED and accepted a position as Clinical Research Coordinator with the Calgary Stroke Program. This was my best career move, ever! I returned to my home town of Kelowna in 2012, and have worked as a CRC with the Interior Health Clinical Research Department since it's inception in 2017. I collaborate with the IH Stroke Program and IH Research on a number of projects at multiple levels. I am also a member of the Canadian Stroke Best Practise Recommendations writing group for acute stroke. I love the outdoors, and have a multitude of hobbies.

### **Tanya Kadach, Study Coordinator, CCRP, Fraser Health Multiple Sclerosis Clinic**

Tanya Kadach is a study coordinator, who has been conducting clinical trials in the Fraser Health Multiple Sclerosis Clinic, Burnaby Hospital since 2013. Her background includes MEng in software development and in her home country Belarus, she has been specializing in artificial intelligence systems and decision-making methods. After immigrating to British Columbia, Tanya has found a new area for implementation of her skills and knowledge in the FHMS clinic research department. Being a constant learner, Tanya is seeing a great potential and very much interested in a patient-oriented research, quality standards, research technology and data analysis.

---

### **Tiffany Patterson, MSc, Clinical Trials and Research Coordinator, BC Cancer - Victoria**

Tiffany has worked with the Clinical Trials Unit at BC Cancer – Victoria in the position of Clinical Research & Trials Coordinator since 2020. As an MSc graduate with a background in biology and psychology, she's had the opportunity to collaborate with various cancer research teams on projects concerning lung cancer, melanoma, and sarcoma. She's coordinated accruals for multiple research studies and biobanking programs over the past two years and has organized and managed numerous clinical trials. As someone who grew up in rural BC, her passion involves improving access to research studies for patients in rural and remote places.

---

## **MODERATOR**

### **Dorothy Herbert, Research Ethics Board Coordinator, Interior Health**

Dorothy Herbert has held the position of Research Ethics Board Administrator at Interior Health since 2011. She holds a BSc (Dietetics) from UBC and Master of Applied Sociology from the University of Tasmania, where she was a visiting scholar. Prior to her current role at IH, she worked as a Clinical Research Coordinator in nephrology at St. Paul's Hospital and subsequently taught in the CRC training program at BCIT.
